EDUCATION

Bachelor of Technology in Computer Science and Engineering | Expected May 2027
Vellore Institute of Technology, Chennai | **CGPA:** 9.16*/10.0

SKILLS

Programming Languages	Python, TypeScript, JavaScript, Go, C/C++, Java, SQL
Web Development	Next.js, React, FastAPI, Express, Tailwind CSS, Motion.dev
Mobile Development	React Native, Flutter
Databases & Tools	PostgreSQL, MongoDB, Prisma, Drizzle, Git, Docker
GenAI	OpenAI API, LangChain, Vector Databases, RAG

EXPERIENCE

Junior Developer Intern | Feb 2026 – Present
Attack Capital (YC W22) | *New York, United States · Remote*

- Working on PowerDialer.AI, building a production monitoring system with Checkly.
- Writing automated browser checks to validate critical user flows across production environments.
- Developing status pages to surface real-time system reliability metrics across production services.

Software Engineering Intern | June 2025 – July 2025
Anana Care | *Remote*

- Built REST APIs in FastAPI for image-based validation features (glasses, hat, smile, open eyes).
- Integrated backend services with a React Native mobile app for photo capture and verification.
- Worked on error handling and basic monitoring to improve API reliability.

PROJECTS

Anilog – Social Anime Tracking Platform | (Next.js, Elysia, Bun, Drizzle ORM, PostgreSQL, GraphQL)
Live | GitHub

- Monorepo with a Next.js 16 frontend and Elysia/Bun backend, using Drizzle ORM with PostgreSQL.
- Integrated AniList's GraphQL API to fetch anime metadata: ratings, genres, and episode data.

TaskFlow – AI Workflow Automation Platform | (Next.js, tRPC, Inngest, TanStack Query)
Live | GitHub

- Visual workflow editor for trigger-based automations (n8n/Zapier-style) with webhook and form triggers.
- AI nodes via OpenAI, Claude, and Gemini; background job execution with Inngest and Sentry monitoring.

TmpLockr – File & Note Storage and Sharing Utility | (Next.js, Drizzle ORM, JWT, Tailwind CSS)
Live | GitHub

- File and note sharing platform with custom JWT auth, per-user limits, and server-side caching.
- Built for personal use and later adopted organically by students across VIT Chennai.

ACHIEVEMENTS & EXTRACURRICULAR

- Secured **2nd place** at the Bitwars Hackathon, competing against 100+ teams.
- Member of the Google Developer Group (GDG) Web Development team at VIT Chennai.
